asia's leading exhibition

transport logistic China 2022

Benefit from Asia's potential in Shanghai

It's the leading trade fair for logistics, mobility, IT and supply chain management in Asia. It's the driving force behind China's logistics and transport sector. It gathers important decision-makers from around the globe. And it's the gateway to the Asian logistics market. That's transport logistic China.

Remaining on an overwhelming growth track, the exhibition's 2018 edition attracted 667 exhibitors and more than 26,300 visitors from as many as 67 countries and regions. The all-dominating topics? Industry 4.0 and the New Silk Road.

In 2020 transport logistic China unfortunately had to be cancelled due to the Covid-19 pandemic. So it is all the more important to resume business and especially personal contacts that could not be made due to the pandemic.

What better place to meet and see your customers, partners and getting new contacts than at the next transport logistic China 2022 in Shanghai where we will await you with a professionally organized event, managed by the highly experienced team of the transport logistic trade fair in Munich and Shanghai. For you to efficiently network with your target audience and logistics experts from all over the world. Are you in?

Visitor assessment of tIC 2018 (rating: excellent, very good and good)

Presence of Chinese exhibitors	95 %
Presence of international exhibitors	94 %

Global reach: 67 visitor countries and regions

Thomas Lindy Sorensen,
CEO, Schenker China Ltd. (Germany)

"We already have been at transport logistic China four times. For us, the transport logistic fairs are important events to stay up to date and develop our business opportunities."

All facets of the logistics industry. One single spot.

Hub for air cargo: taking off together

Asia's largest air freight event and integral part of transport logistic China: air cargo China offers exclusive networking and new business opportunities.

as One Belt, One Road (OBOR). They are intended to facilitate the flow of goods and include the construction and improvement of roads, railways, shipping routes, harbors and logistic centers. These mega projects will not only promote the economic relationship between South and Central Asia, the Middle East and Europe, but also open up various new business opportunities for the logistics industry.

Fresh, firm, fail safe: solving the challenge

perilog – Fresh Supply Chain Asia focuses on logistics solutions for fresh food and provides the answers to the biggest logistical challenges in this sector.

Smart logistics

A new round of technology revolution is under way with the Industry 4.0 and Made in China 2025 initiatives: big data, cloud computation, artificial intelligence and block chain technology are increasingly used; new trade and business models are emerging. As a result, smart logistics has become mainstream, owing to its strong growth and increasing capabilities.

Trucks and trailers: addressing the latest trends

As part of transport logistic China, truck & trailer China is devoted to the potentials of commercial vehicles, electric cars and city logistics.

Two shows, one date: creating synergies

2022 will feature a premiere: as announced in 2018, LogiMAT China will move to Shanghai and be held together with transport logistic China to establish a new, one-stop B2B platform of intralogistics solutions and logistics services at the Shanghai New International Expo Centre (SNIEC). Thus, transport logistic China and LogiMAT China will occupy seven exhibition halls spanning more than 80,000 m².

Silk Road: reaching far beyond improved logistics

It will for sure be one of the trending topics at transport logistic 2022: the Chinese government's Silk Road initiatives, also known

Expand your know-how. Free of charge.

The 2018 edition's 20 conferences saw almost 3,000 attendees, who discussed the latest developments in logistics. In 2022, the free supporting program will once again come up with a line-up of over 100 high-profile speakers, offering in-depth insights into logistics, mobility, IT and supply chain management.

Trends in airfreight. Stay on top of things.

Want to know the major concerns of the air cargo sector? Then don't miss the air cargo China Conference 2022 which is a unique occasion to exchange knowledge and discuss the recent industry trends—both from an Asian and a global perspective.

National pavilions 2018

Feng Xiang,
Vice President, YTO Express Group Co., Ltd. (China)

“This was the second time we exhibited at transport logistic China. My impression of the trade show as a whole was very good. It was very busy and reached a lot of international visitors.”
